

SPECIFICATIONS OF THE SOLAR WATER PURIFIER:

Performance

8 Liters per minute of clean water

10.000 Liters of clean water per day

The Solar System

500WP Solar power

12V 150AH storage

Microprocessor controlled charge system

Real-time charge and discharge information

Lighting strike, thermal, and short circuit protection

The Water Pump System

Dual pump system

Electronic pressure regulated

12LPM high pressure pump

15LPM low pressure feed pump

The Filtering System

3 stage and additional UV treatment

Electronic controlled UV warmup

3 x 20 inch high grade filter cartridge

UV flow through sterilisation unit
